LM

“ Mrs. Stenson came to Laquey as a teacher and she understood that we needed to be challenged more and would encourage those who needed encouragement. She was the first teacher to recognize my love for reading and helped me pick out so many awesome books that broaden my horizon. She was one of the reasons I chose teaching as my profession. Mr. Stenson was reason for me to chose history and government. She helped change my life and helped me to believe in myself and my talents. I was Loretta and not bound to others expectations. She taught me that to go further I just had to beat my current self each time I took a step in the future. She will always be remembered.
