“ *SPC Joshua Carter was a tremendously talented Engineer Soldier whose tenacity for accomplishing the mission went beyond expectation. I am thankful and privileged for the opportunity of knowing and working with Joshua, though for a short time. He had the admirable quality of always being willing to help other Soldiers, regardless of the circumstance. His work ethic and knowledge of construction always impressed those around him. Though his time on earth was tragically cut short, his contributions to our Nation, the Army, and to his fellow Soldiers are greatly appreciated. He will be missed dearly by all that knew him.*
