“ My condolences to the family. I haven't seen Naldo since 2005. Even though that was quite awhile ago we always kept in touch, just not as often as we'd like. I usually heard from him around the week of his birthday because my birthday was 3 days later. After wishing each other happy birthday, We would stay on the phone talking for hours, And then go back to our lives and catch up when we could. We never forget about each other even after all those years. When I was living in Missouri, I lived right down the hill from him and he would either come hang out at my house or I'd come to his. We spent so many hours talking about everything. I was really upset to hear about his passing, it's hard to believe. Well my birthday buddy will be missed very much and I'll hold on to our memories. 💔R.I.P. Naldo, love you lots friend.
